

# Test Certificate in accordance with ISO/IEC 21964-2:2018

(Cert\_AV\_19)

BFUB CERT Umweltprüfungsgesellschaft mbH hereby certifies that  
the company

**Dansk Sikkerhedsmakulering  
Poul Schou A/S  
Logistikvej 25B  
DK - 5250 Odense SV**

meets the ISO/IEC 21964-2:2018 requirements regarding machines intended for destroying  
data storage media as determined during the on-site inspection on 2024/08/12 and  
2024/08/13.

As part of the on-site inspection following security levels has been demonstrated by testing  
the shredder by means of sieve analysis of appropriate shredded material:

appropriate hole size in the perforated screen	security level	Machine type	throughput performances
35 mm	ReTec 2017-05-2021 (EG 48 12)	H-4	1,3 t/h
35 mm	ReTec 2017-05-2021 (EG 48 12)	P-2*	1,4 t/h
35 mm	ReTec 1807-12-2018 (CX 91 09)	H-4	1,2 t/h
35 mm	ReTec 1807-12-2018 (CX 91 09)	P-2*	1,5 t/h
35 mm	ReTec 1403-12-2014 (CN 97 073)	H-4	5,6 t/h
35 mm	ReTec 1403-12-2014 (CN 97 073)	P-2*	0,9 t/h
25 mm	ReTec 1204-01-2013 (AE 66 11)	P-3*	0,5 t/h
25 mm	ReTec 1204-01-2013 (AE 66 11)	H-4	2,5 t/h

\*according to ISO/IEC 21964-2:2018, by mixing and additional pressing the shredded material, it is possible to increase the security level once for the presentation of information in its original size to the next higher level from a throughput of at least 100 kg.
